

# What my clients says after working with me

BCG

- Strong listener, good to structure our problems and challenges, especially in the 1:1 session, very open and energetic, brings positivity into the group
- I liked how every session was effectively timed and structured; there was a lot of energy and good vibes coming out each time we spoke to you; honesty, positivity and fun
- I thought you were very good at listening and encouraging us to solve our own problems. You didn't try to offer an immediate solution but would allow us think through it ourselves so we could learn for future cases
- In 1:1, you really pushed for me to develop a solution to my issue, and it helped! In all other meetings, you created an amazing atmosphere and managed to lift our team spirit and performance
- I thought your energy and power is amazing and inspirational
- Great spirit, honest feedback and great personally!

Feedback BCG team coaching, Jan 2022

I really learned more than what I expected from the program. My mentor Lucie was able to push me outside my self-doubts and help me gain confidence in putting-into-action the insights I learned from her. I also have a lot of takeaways that I can apply in everyday life.

## Feedback Preplounge: MBB candidate coaching

★★★★★ January 28, 2022 by [Alexander](#)

The short review:

Lucie is the perfect match if you want to progress fast with a coach who truly wants to understand YOU and what you bring to the table. Not just applying frameworks.

The long review:

I've had the opportunity to meet with Lucie twice and I'm amazed about her competencies within this area. From the first day we met she has been exceptional in her work.

For her it's all about the human behind the screen who is about to embark on their journey towards becoming a MBB consultant. She truly spends time on making a in-depth diagnostic of where you are currently and the steps to progress. Not just a quick diagnostic where a frameworks will be the main driver for your progression. She thoroughly goes through all the necessary areas from CV/Cover letter to Case solving elements (math, structure etc) with recommendations and actions for each.

The missed element which has been a kicker for me is to understand WHY. By why i mean the reason for the interview to be structured as it is. She is very clear in very angle and takes the coaching to another level.

I can deeply recommend Lucie if you want to break into MBB.

I would recommend to anyone who is interested to break into MBB.

Great learning experience, structured approach, and Lucie is paying attention not only the coaching sessions but also your overall career path.

Interview with Lucie gave me a good start to go about preparing for my FIT as well as case interviews. She guided me on the right questions to ask the interviewer for case interviews.
