The image displays four sequential screenshots of a WhatsApp chat conversation within the PrepLounge app. The chat is between a user and a contact named "Moritz".

Screenshot 1: Shows the start of the conversation on 02/03/2022. The user asks, "Hey Moritz! how are you?? I GOT AN OFFER AT MCKINSEY!!!" (04:14). The user then shares that they had their final round interviews and received the call with good news (04:14). The user expresses gratitude for the coaching and hopes more people can benefit from it (04:15).

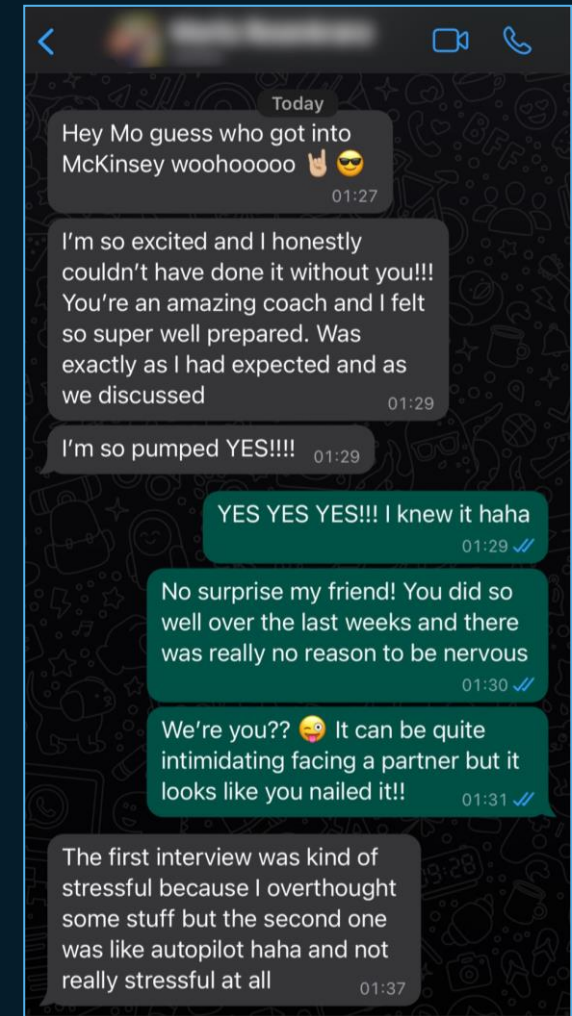

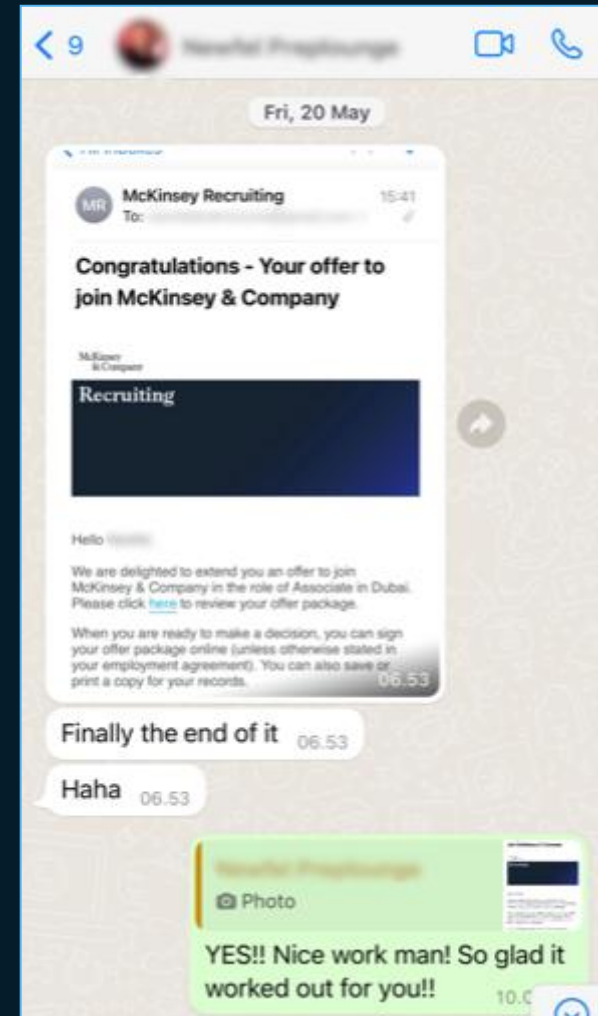

Screenshot 2: Shows the user's first message to Moritz: "Hi Moritz," (18:38). Moritz responds with encouragement: "Hi Moritz, I got extended an offer from the firm! I firmly believe our session yesterday gave me the needed boost to succeed! Thank you! Best regards, Andreas" (18:40).

Screenshot 3: Shows the user's detailed message: "I did it! I got an offer from McKinsey! Thanks Moritz, I especially liked your way of clear and calm communication and your focus on not being robotic instead being authentic, the 'putting some MECE-Sauce on top of my structure' (loved this one!), overall I loved that you didn't only focus on the analy. quant. consep. thinking but also on how you perceived me personally and how to become authentic making the case conversational! Really helped me alot to get the best out of my short preparation time! Many thanks! No other coach (I tried 3) wasn't that good but one of them did a lot of motivational talk at the end which felt good too.. Really nice to have met you, the earth is round, no matter which direction we're heading, we might see us again! Cheers!"

Screenshot 4: Shows the user's final message: "Hi Moritz! Apologies for the late response but I wanted to thank you again for all of your help. I ended up getting the Bain offer and next round for Mck / BCG, but liked the Bain office so much that I decided to pull out of the process with Mck / BCG and accept the Bain offer!" (23:16). Moritz responds: "Your coaching was invaluable in securing the offer, and I felt extremely prepared going into the final round from our prep. Funny enough, it felt like each round was way easier than the previous. I was almost 100% sure I was getting the offer by halfway through the final round :)" (23:17).
