With the help of Francesco, I secured a final round interview with an MBB firm. The interview is this week, and I know I could not have done it without Francesco's guidance!!

Francesco is outstanding. He's incredibly structured in his coaching approach and has very tactical feedback you can action on immediately - we literally line-by-lined my PEI story to help with flow and to make sure it hit all of his PEI "points". He also took 2 hours rather than our allotted 1 hour time to make sure we deeply covered both PEI and case. I've worked with a number of professional coaches over the years (>5), and Francesco is simply the best I've encountered.

Update: got an offer from MBB!

I am an Industry hire with advanced degree and I took the GYM program with Francesco and I am happy to say that I've received an offer from BCG and made it to the final rounds with McK and Bain without any rejections. While actually doing the different sessions with Francesco, I felt like I was not learning anything new but I only realised how much more polished I had gotten with my case skills compared to others while practicing with my peers. His frameworks are really comprehensive and learning them helped me be confident of any type of structuring. Also, the market sizing session was the most helpful because that is one of the most important skills in the later rounds of the interviews. Will definitely recommend Francesco!

Cases I thought were so confusing to structure now they make great sense with the guidance Francesco gave me. Also, we used way more

Really helpful to improve key points of the

 PrepLounge 

because it provided quick-wins which I could use immediately as well as areas for improvement for the longer-term.

The structured approaches for different case types which Francesco developed are also highly useful.

Francesco also shared real case questions from the company I interviewed with, which could use for my further prep after the session.

Again, great experience!

Addendum: I successfully passed the interviews and got an offer after my session with Francesco.

Update: I've got an offer for MBB! Francesco's stress-testing approach has also helped in getting it :)

The GYM program with Francesco is a great addition to the preparation efforts. Focused drills on structuring helped me to understand how to think about frameworks, and the review of performance identified which areas of improvement to target first. I recommend doing the GYM program, however I would say that in order to derive the best value from it, it's best to already have done about 5 cases before, as then you can focus on what really matters, rather than just getting to know the mechanics.

I secured an MBB offer after completing Francesco's GYM program.

Francesco is a very structured and organized coach and I could see myself growing with every session. He was very punctual and meticulously organized. He provided detailed (often in excess of 1 page) feedback that covered areas beyond case structuring, i.e. Francesco also provided feedback on the way I communicated, made notes and asked clarifying questions.

Francesco teaches you a way to think, a way to frame problems, which is very important for increasingly complex cases and business problems.

Two sessions with Francesco and I landed the offer I was really looking for, although it was my first case interview since 2 years! I was quite bad at these type of interviews, but his tips were extremely helpful, even the questions to ask at the end were really great advices and can really make a difference in landing the job.
