I just did my third session with Francesco and thought about giving an update about the program. I always thought that a consulting interview was just about solving a case, and I have been introduced to a lot of other aspects that makes you succeed. I would list:

- Communication, attitude, prioritization,

With the help of Francesco, I secured a final round interview with an MBB firm. The interview is this week, and I know I could not have done it without Francesco's guidance!!

Francesco is outstanding. He's incredibly structured in his coaching approach and has very tactical feedback you can action on immediately - we literally line-by-lined my PEI story to help with flow and to make sure it hit all of his PEI "points". He also took 2 hours rather than our allotted 1 hour time to make sure we deeply covered both PEI and case. I've worked with a number of professional coaches over the years (>5), and Francesco is simply the best I've encountered.

Update: got an offer from MBB!

I am an Industry hire with advanced degree and I took the GYM program with Francesco and I am happy to say that I've received an offer from BCG and made it to the final rounds with Mck and Bain without any rejections. While actually doing the different sessions with Francesco, I felt like I was not learning anything new but I only realised how much more polished I had gotten with my case skills compared to others while practicing with my peers. His frameworks are really comprehensive and learning them helped me be confident of any type of structuring. Also, the market sizing session was the most helpful because that is one of the most important skills in the later rounds of the interviews. Will definitely recommend Francesco!

Had my second coaching session with Francesco today. His coaching is extremely helpful. We covered so many case types and the best way to approach them (with focus on the framework/structure to use). Cases I thought were so confusing to structure now they make great sense with the guidance Francesco gave me. Also, we used way more

Great and detailed feedback from Francesco! He showed me how to better structure and present the different parts of the analysis as well as how I can drive the analysis purely by formulating hypothesis and consequently asking the right questions.

Coaching with Francesco was extremely useful, and after few sessions I managed to get an offer from Roland Berger! He is truly amazing and exceptional. Right after the first session, I felt I was engaged with Francesco. His coaching inspired me and I immediately jumped out of my old preparation methods. The differentiation between me and my peers was so obvious after several session with Francesco that I was easily beat with those who were considered stars among my preparation group. Francesco has been with me since the beginning of my first interview for four times now. I've passed three round onsite, all thanks to his patient, thoughtful, and strategic guidance.

I strongly recommend Francesco for the following three main areas:

I totally need to thank Francesco for helping me so much. Francesco gave me so many insights on case interview and helped me land my job with only 1 round of interview and got the offer on the spot. Francesco coached very thoroughly, from company fit part to case part. In terms of the case part, we did a profitability case, then moved on to the feedback. The feedback Francesco gave was very detailed and structured. He mentioned very specifically on what can be improved in each stage of the case, which I found very useful. I also got to learn the better way to structure my notes and to communicate.
